

## Traceability Solutions

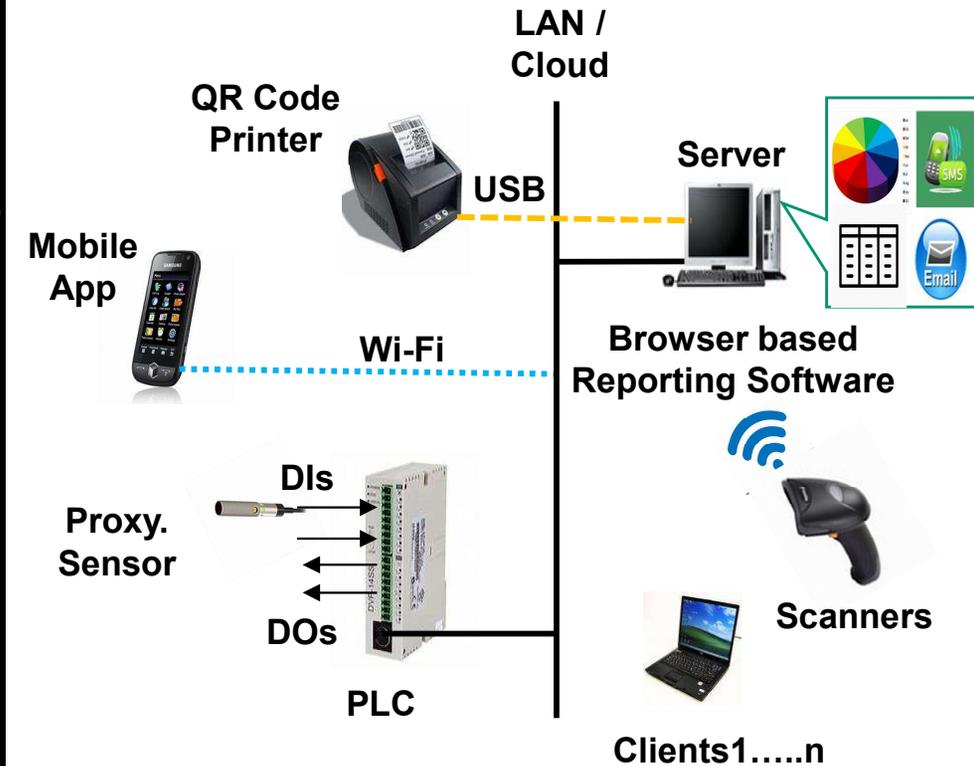

Project : Product Traceability System

Product : Auto Components

Industry : Automobile

### HIGHLIGHTS

- ✓ **1 System for entire Product Mix & different Clients**
- ✓ *Models | Clients | Suppliers | RM | WIP | Mfg. Processes | MTO / MTS wise Traceability possible*
- ✓ **Online / Real Time Data & Analytical Reports Viewing from ANYWHERE across the Plant / Globe**
- ✓ **Can work with ANY Hardware** like PLC, QR / Barcode Scanner, Printer, Sensors etc. with **ERP Connectivity**
- ✓ **Minimize Human Resources & Errors in operations**

### THE CHALLENGE

No Traceability due to Manual Operations | Lack of Online Data Monitoring & Reporting

### AT SOLUTION

- ✓ **Automated QR / Bar Code Generation & Printing for Traceability Linking**
- ✓ **Online, Browser based Reporting as a Powerful Analytical / SPC Tool**
- ✓ **Centralized Data Storage with ERP Connectivity**
